

Luis Héctor García Muñoz.

I was born in Torreón, Coahuila, México, and received a Diplom (similar to M.Sc.) in Computer Science by Departament de Sistemes Informàtics i Computació of Universitat Politècnica de València (2002), a Master in Computer Systems (2014) by the Instituto Tecnológico de La Laguna of Tecnológico Nacional de México, and a Ph.D. in Computer Science (2013) by the Departament de Sistemes Informàtics i Computació of Universitat Politècnica de València.

Currently, I am Professor at the Instituto Tecnológico de La Laguna (TecNM), teaching different courses on operating systems, distributed systems and Artificial Intelligence.

My research interests are focused on distributed systems, including replication protocols, recovery approaches, distributed data management and scalability mechanisms, artificial intelligence and machine learning.
